

3.5 Inch HITACHI LCD Screen Panels TX09D80VM3CBA 240(RGB)x320 For Industrial Use

Place of Origin	China/Taiwan/Japan/Korea
Brand Name	HITACHI
Certification	RoSH&CE
Model Number	TX09D80VM3CBA
Minimum Order Quantity	10pcs
Price	Contact us for the current price
Packaging Details	30pcs/ctn,38*48*30CM,13kg~16kg/ctn
Delivery Time	Within 3 days after confirmed your payment
Payment Terms	T/T,Paypal,Western Union
Supply Ability	10000 pieces per month

Products Detailed

3.5 Inch HITACHI LCD Screen Panels TX09D80VM3CBA 240(RGB)x320 For Industrial Use

A liquid crystal display (LCD) is a flat panel display, electronic visual display, video display that uses the light modulating properties of liquid crystals (LCs). LCs do not emit light directly.

They are used in a wide range of applications, including computer monitors, television, instrument panels, aircraft cockpit displays, signage, etc. They are common in consumer devices such as video players, gaming devices, clocks, watches, calculators, and telephones. LCDs have displaced cathode ray tube (CRT) displays in most applications. They are available in a wider range of screen sizes than CRT and plasma displays, and since they do not use phosphors, they cannot suffer image burn-in.

LCDs are more energy efficient and offer safer disposal than CRTs. Its low electrical power consumption enables it to be used in battery-powered electronic equipment. It is an electronically modulated optical device made up of any number of segments filled with liquid crystals and arrayed in front of a light source (backlight) or reflector to produce images in color or monochrome. The most flexible ones use an array of small pixels. The earliest discovery leading to the development of LCD technology, the discovery of liquid crystals, dates from 1888.[1] By 2008, worldwide sales of televisions with LCD screens had surpassed the sale of CRT units.

Size:	3.5 inch
Brand Name:	HITACHI
Condition:	Brand new, Grade A+
Part Number:	TX09D80VM3CBA
Resolution:	240(RGB)x320
Brightness:	400 cd/m2
Contrast Ratio:	300:1(Typ.)
Viewing Angle:	80/60/70/70(Typ.)(CR≥10)
Backlight:	WLED
Description:	Thin-film transistor (TFT) Active-matrix Liquid Crystal Display (LCD)
Warranty:	3 days returned purchase, 4 months (120 days) warranty included
Payment Term:	T/T, Paypal, Western Union

Delivery Terms:	DHL, UPS, FedEx, TNT, normally 5-9 working days
Packing:	Antistatic bag
Port:	Shenzhen/HK

Why purchase from Hongkong Chance Technology CO., LTD?

1. Our company distributes genuine screens of the unsurpassed quality. The LCD screens that we sell are made by reputable manufacturers. We sell only genuine original screens - no generic or fake. The quality of these screens is exceptional because they are the same as the ones that manufacturers use in their current machine models. The production of LCD screen is a complex task that is why there are no generic or fake screens available on the market.

2. Our huge stock of LCD screens have been manufactured solely by large corporations like AUO, Chi-Mei, Toshiba, Hannstar, Chunghwa, Samsung, LG Phillips, Sharp, etc. They are globally recognized suppliers of electronic components. They manufacture an array of products, ranging from laptop internal cables, motherboards, LCD screens, hard drives, and DVD drives to keyboards. These manufacturers strive hard to maintain the highest quality of the LCD screens. Their LCD screens are able to work in the most demanding environment.

3. Purchasing from Hongkong Chance Technology Company, you will get the best quality products and best service. Even retail customers (below 100pcs), we will also offer the price nearly wholesale.
